4" Coiled Line Pipe X52C/A53

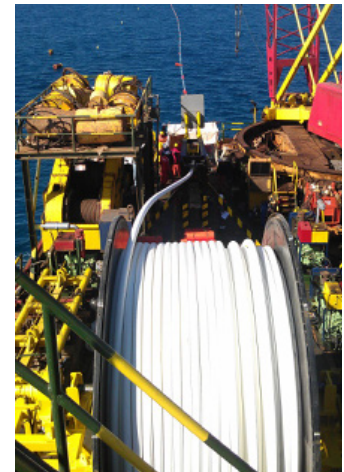

COILEDLINEPIPE

BY GLOBAL TUBING

Product Benefits

Global Tubing is a technology leader in the manufacture of Coiled Line Pipe for the oil and gas industry. Ideally suited for well tie-ins, long flowlines and pipelines, Coiled Line Pipe often allows for project completion without a single in-field weld or connection.

Why Use Coiled Line Pipe?

- 100% compatible with other steel pipe
- Safer, faster and much less costly installation than any alternative
- Industry-leading QHSE, recognized by API Q1 and an API 5LCP monogram (License #0006)
- Long, continuous pipe lengths can be utilized in directional bore pulls or in river crossings for quick and less risky deployment
- State-of-the-art coatings provide unrivalled protection in any terrain
